

# We See Color Party

---

SATURDAY, JANUARY 24 | 10-11:30 A.M.

Do you see our colorful world?

What are your favorite colors?

Red, orange, yellow, green, blue, and purple can combine in lots of different ways. Humans can see over 1,000,000 colors!

Everywhere we go, we see colors.

When we look at the sky, we see colors.

When we play at the park, we see colors.

When we go to the library, we see colors.

When we look at each other, we see colors.  
We see the colors of our clothes.

How many colors do you see in this picture?

We see the colors of our skin and hair.

Look at your skin. What does your skin's color remind you of?

No matter how dark or light your skin is, your skin and hair are amazing just as they are. There's no such thing as "too light" or "too dark"!

There are so many different colors of skin and hair!

And, we can be friends with each other  
whether we look similar or very different.

No matter what we look like, each person is a little mysterious. We can't guess what someone is like by looking at them — we have to get to know each other!

**What makes  
you laugh?**

**What games  
do you like to  
play?**

**What do you  
like to do with  
your family?**

**What do you  
do on  
vacations?**

**Do you ever  
feel shy?**

After all, just because we *look* different doesn't mean we *are* different.

**What kind of music do you like?**

**Do you like sports? Which ones?**

**What's your favorite food?**

**What do you like to read?**

Probably, with every person we meet, we are similar in some ways and different in others!

Isn't it cool how we can all look so similar and so different at the same time?

How are these kids the same?  
What about these kids is different?

Even though we might look different, we all need the same things.

We all need comfort, love, and to feel important.  
We all need food. We all need shelter. We all need clean  
water. We all need safe places to learn, play, and grow.

This year, we are having a party at the library to celebrate all of our similarities and differences!

We might look different. We might like different things. But we can all enjoy a party at the library!

You can do crafts  
and activities at  
the party.

You can work together  
to create something  
beautiful.

You can do a scavenger hunt.

You can watch people  
dance — and dance  
along if you want!

Our community is made up of wonderfully unique people,  
and you are one of them!

We want to celebrate YOU, because you are important  
and special.

We hope to see you at the library very soon!
